Get the Perfect Summer Glow Year Round Kai – The Medical Spa Offers Custom Airbrush Tan

(Atlanta, GA) September 4, 2008 – Kai – The Medical Spa announced today that it will offer clients custom airbrush tan in its three Atlanta area locations. This UV Free tanning option is applied by Kai's own fully trained spray technicians to give you a light overall tan or make you as dark as you've ever dreamed in just minutes.

"For the past three years I have searched for a spray tan that looks natural and not orange, lasts long, doesn't streak, and most importantly, does not smell," says Grace Choung, Managing Partner of Kai. "I personally tested over a dozen spray tans, and this airbrush tan is by far the best one available."

All airbrush technicians are specially trained to ensure that your experience and your results are perfect every time. Hands and feet are not a concern with this system, and the results will last about 7-10 days fading gradually.

The airbrush tanning system uses a time proven DHA formula to actually tan the skin brown like the sun, without harming the skin. Each tan is custom made, meaning the formula is adjusted to suit your skin type to ensure the perfect tan.

Airbrush tanning begins at \$45 for an individual session. A package of three is \$120, and a package of six is \$210. As an extra bonus, Kai also offers a complimentary spa white teeth whitening treatment with the purchase of six airbrush tans. (While supplies last.)

"Now you don't have to worry about an uneven application, and you have the added assurance that you have done nothing to harm your skin," Choung says. "You can have that rich beautiful tan without the dangers or damage associated with UV exposure... in just 30 minutes, you will walk out looking like you've spent a week in the Caribbean."
